AENAON joins LORD IMPALER

The circle is complete and the pit is full of demons! **Aenaon** recently joined **LORD IMPALER** as the second guitarist of the band. This is the first time they have a complete line up, after the release of their "*Twilight Wander*" demo back in 2001.

"We held the vision of Lord Impaler high and endured many difficulties for many years. It is delightful to finally reap the fruits of our efforts. Over the last year we found 3 new members, people we can call brothers, people who share our dream and vision, people who have this rare chemistry..." Lord Nebulah comments. *"We feel so alive today, after twelve years of constantly seeking that which was missing, after twelve years of not giving up no matter how many lemons life handed us. And it was totally worth the wait, every single day of it. I feel it every time we get together and rehearse."* adds Tragon.

Lord Impaler is a melodic black metal band from Kastoria, northern Greece. The band recently released a new EP under the title "*Babylon Whore*", available in digital format through Bandcamp, in CD-R as a split with ATHOS, and soon in tape format by the French *Infernal Kommando recs.*, and is currently working on their second album, "*In Full Regalia*".
